Subject: Task Order #68HERC20F0025

Good afternoon William,

NAS has a need to extend the subject award to 7/31/22 – you may have received something from EPA program. I've pasted the particulars below from an email from our PI. Let me know if this request/action is on your radar or if you have any questions.

Dahnish and Vicki,

My preliminary request is for a six month extension to July 31, 2022. This would allow time to schedule the two workshops, and for each of them:

- Solicit, review, and select poster abstracts from outside of EPA prior to each workshop, and
- Issue reports after each workshop.

We have received Academies approval of our the workshop planning committee and are in the process of notifying the candidates and obtaining their formal acceptance to serve on the committee. Also, we have been in discussion with an outfit that will enable poster sessions to be held over the Internet.

Russell
